Rec 2 Luly 5 - M. Dean Du, V. Brust you will exeuse me in taking the liberty of troubling you; but, as I have I in contemplation to take another collecting brips and being undecid as to the region most advan lageous for me to explore, I am well aware you can que me information on that Subject. The Island of Cuba Sam well awar is decided ly sich in floral treasures: but how for it has been explored by any Botanical Collector Jam not competent to say. There I would have every for celity for forwarding my Specimens & Suds to Emgland, which of course is a great advantage: but on the other hand it is avery exprension Country To live in, which with me requires consideration From the Tantalizing proof Thoda of the Hosa about the Ration Mountains for the Short time I was there whome every recessor to think that in the country between Las I & Vointa Fe a value ble collection might be obtained and I must eonfils my inclination lends lowards that country. Vunderstood from you that you had received a collec Thon of Officemens from the Sounta Te Region: but Dr. MISSOURI
